HI, I'M TAL!

And I'm a passionate editor and filmmaker. My creative journey took me from music videos and fashion films to high end commercials and film trailers.

Always looking for creative growth, for a chance to make people feel something great through sound and picture.

When I'm not chasing the perfect music track or trimming a shot for the thousandth time, I like to write and direct silly short films and catch up on the latest films and shows.

Please check my website, I keep it up to date with latest stuff I cut.
